*Seventh.* Pipes must always be tapped on the top and not in any case at the hub.

*Eighth.* After the ferrule is inserted, the earth must be returned and carefully rammed with suitable rammers under the supply pipe to a level with the top of the pipe before the connection is made, and the ferrule must be covered with a cast-iron box.

*Ninth.* After service pipes are laid, the back filling must be puddled, and this work, together with the replacing of ballast and paving, must be done so as to make the street at least as good as it was before it was disturbed and to the satisfaction of the Superintendent of Water Works, and the plumber will be held responsible for any subsequent settling of the ground. All water, sewage, and other pipes must be protected from injury or settling to the satisfaction of said Superintendent.

*Tenth.* It shall be the duty of the Superintendent of Water Works to supervise and direct these operations, and from time to time report to the Board of Trustees as to the manner in which the plumbers perform their work, and the condition in which he finds the streets repaired.

*Eleventh.* Service pipes must in all cases be laid at a depth of not less than five feet below the surface of the ground.

*Twelfth* Stop-cocks must in every case be inserted in the service pipe, and protected with a cast-iron cover, having the letter "W" marked thereon, and such cover shall be placed by the plumber on the edge of the sidewalk near the curb, visible and even with the platform or planking.

*Thirteenth.* Service pipes, if of lead, must be of the weight known as "extra strong." Lead pipe used for plumbing houses must be in weight equal to the kind known as "strong," as designated on the circulars of E. W. Blatchford & Co., Lead Pipe Manufacturers, Chicago. Iron service pipes must withstand a hydraulic pressure of two hundred pounds to the square inch. In no case must lead be soldered to iron, but be wiped with heavy joints into brass connections, and between the tap and the coupling in the iron service pipe there must be at least two feet of lead pipe bent in **S** or other form to relieve the rigidity of the iron pipe. Pipes must be at least one-eighth inch larger than the tap used.

*Fourteenth.* All persons taking the water shall keep their service pipes, stop-cocks, and fixtures connected therewith, in good repair and protected from frost, and shall prevent all unnecessary waste of water; and it shall be expressly stipulated in all permits that no claim shall be made against the town, or any of its officers or agents, by reason of the breaking of any supply or service pipe or cock.

*Fifteenth.* Hydrants, taps, hose, water-closets, urinals, baths, and other fixtures, will not be permitted to be kept running when not in actual use. All faucets connected with service pipes must be so constructed and of such pattern as may be approved by the Superintendent.

*Sixteenth.* No private hydrant shall be located on the sidewalk or elsewhere beyond the limits of the lot of the party to whom the permit is issued.

*Seventeenth* Service pipes intended to supply two or more distinct premises or tenements, must be provided with separate and distinct stop-cocks for each tenement on the outside of the same, and when only one stop-cock is used, the person or persons controlling the same must pay the water rent of all parties who are thus supplied, as separate water bills will not be made.

*Eighteenth.* Where it is necessary to break up the sidewalk for putting in water service pipes or private drains, there shall be left, or constructed, and maintained, a walk at least four feet wide, in all cases excepting when the walk is wholly taken up and travel shut off by a substantial barricade.

*Nineteenth.* Applications for water must state fully and truly all the purposes for which it is required, and when paying the semi-annual charges for it, parties must frankly, and without concealment, answer all questions put to them relative to its consumption ; and the applicant shall, in such application, agree that in consideration of the insertion of the ferrule, he will pay, or cause to be paid, the assessment levied, or to be levied, on said premises for the water pipe that is proposed to be tapped, and that he will faithfully comply with the rules established by this ordinance.

In case of fraudulent misrepresentation on the part of the applicant, or of users of water, not embraced in the applicant's bill, or of wilful or unreasonable waste of water, the supply of water will be cut off, and all payments shall be forfeited to the town.

*Twentieth.* No owner or occupant of any building, premises or enclosure, into which water shall be introduced, will be allowed to supply water to other persons or families. If so supplied, the water will be cut off without notice, and the payment forfeited.

*Twenty-first.* Water rents shall be due, and payable in advance, on the first day of May and the first day of November in each year. Ten per cent. penalty will be added if the rent is not paid within thirty days after the same becomes payable.

*Twenty-second.* The Superintendent of Water Works, and his authorized agents, shall have free access at all hours of the day, between seven o'clock A. M. and six o'clock P. M., to all parts of every building in which the water is delivered and consumed, to examine the pipes and fixtures, and to ascertain whether there is any unnecessary waste of water.

*Twenty-third.* Hose for sprinkling gardens or washing windows and sidewalks shall be used only from the first day of April to the first day of November, and between the hours of five and eight o'clock A. M. and five and eight o'clock P. M. If allowed to run at other hours, the water will be cut off without previous notice. This section not to apply to market gardens, nurseries and green-houses. Water shall be furnished for use in market gardens, nurseries and green-houses at meter rates, with the privilege of use at all times, except at such times as shall be specially directed by the Superintendent, under authority reserved by clause 38 of this section.

*Twenty-fourth.* Yard fountains shall not be used more than six hours per day, and only between April 1 and November 1, except by special permission and upon the payment of additional charges; and the right is reserved to suspend their use and the use of hose for sprinkling gardens, whenever in the opinion of the Superintendent of Water Works, the public exigency may require it. The rate for the use of fountains shall be established according to the size of the orifice in a thin metal plate fixed in the supply pipe of the fountain, at its junction with the main or principal pipe, from which it is supplied. The service pipes of all fountains out of doors must be provided with stop-cocks, under the control of the Superintendent of Water Works.

*Twenty-fifth.* Hose larger than  $\frac{3}{4}$ -inch will not be permitted except on payment of an additional charge, and sprinkling without nozzle, or through a larger opening than  $\frac{1}{4}$ -inch, is forbidden.

*Twenty-sixth.*—No person shall leave any excavation, made in any street or highway, open at any time during the night without suitable barricades and warning lights maintained at such excavation.

*Twenty-seventh.*—The Board of Trustees reserve the right to order a meter to be applied to any service pipe wherever they may deem it advisable.

*Twenty-eighth.*—If proprietors of lumber-yards, manufactures, halls, stores, hotels, or public buildings, regular customers of water from the works, wish to lay large pipes, with hydrants and hose couplings, to be used only in case of fire, they will be permitted to connect with the street mains at their own expense upon application to the Superintendent of Water Works, (and under his direction,) and will be allowed the use of water for fire purposes only, free of charge.

*Twenty-ninth.* Any plumber or pipe-fitter who shall be guilty of a violation of any of the rules or regulations adopted by the Board of Trustees, shall forfeit his license. A forfeiture of the license of any plumber shall operate as a suspension of the license held by any co-partner in the same business, or by any person in his or their employment.

*Thirtieth.* Within forty-eight hours after completing any attachment, or connection, the plumbers or pipe-fitters shall make a true return in writing on the back of the permit of the number of rooms in the premises, and of the contemplated uses of the water therein, according to the rules and regulations and the tariff of water rates, and file the same in the office of the Superintendent of Water Works, as the water will not be turned into any premises until complete returns are made by the plumber.

*Thirty-first.* The water will not be turned into any house or private service pipe except upon the order of the Superintendent, nor until the applicant shall have paid his rent for the current term; and plumbers are strictly prohibited from turning the water into any service pipe except upon the order or permission of the Superintendent.

This rule shall not be construed to prevent any plumber admitting water to test pipes, and for that purpose only.

*Thirty-second.* Any plumber wishing to do business in connection with the Water Works shall, before receiving his license, file in the office of the Superintendent of Water Works a petition, in writing, giving his name, and that of each mem-

ber of his firm, if any, and place of business, asking to become a licensed plumber of the Town of Lake View, stating his willingness to be governed in all respects by all the rules and regulations of the Board of Trustees now or hereafter to be adopted concerning his business. Said petition shall be signed by two responsible citizens of said town, vouching for the business capacity and good reputation of the applicant and for his worthiness to receive a license.

Any person or persons making application to the Town of Lake View, to become a licensed plumber of said town, shall pay or cause to be paid to said town, before such license shall be issued to such person or persons, such sum as the Board of Trustees may from time to time determine.

All plumbers' licenses, unless revoked, shall remain in force until the 30th day of June thence next following the issuing thereof.

Before receiving a license the applicant shall file in the office of the Superintendent of Water Works a bond with two or more sureties, to be approved by the Board of Trustees in the sum of five thousand dollars, conditioned that he will indemnify and keep harmless the Town of Lake View and Board of Trustees from all liability for any accidents and damages arising from any negligence or unskillfulness in doing or protecting his work, or from any unfaithful or inadequate work done in pursuance of his licensee; and that he will also restore the street, sidewalk and pavement over any pipe he may lay, and fill all excavations to be made by him, so as to leave said street, sidewalk, and pavement in as good state and condition as he found them, and keep and maintain the same in good order to the satisfaction of the Superintendent of the Water Works for the period of one month next thereafter; and that he will pay all fines that may be imposed on him for a violation of any rule or regulation adopted by the Board of Trustees and in force during the term of his license.

*Thirty-third.* Any person who shall lay any water service pipes, or introduce into, or about any building, or on any grounds any water pipes, or do any plumbing work in any building or on any grounds, for the purpose of connecting such pipes or plumbing works with the pipes of the Lake View Water Works, or of preparing them for such connections, with a view of having such premises supplied with water by the Lake View Water Works; or who shall make any addition to, or alteration of any water pipe, bath, water closet, stop-cock, or other fixtures or apparatus, for the supplying of any premises with water, without being duly licensed to perform such work by the Board of Trustees of the Town of Lake View, and without having first obtained a permit for the doing of such work from the Superintendent of Water Works of said Town of Lake View, shall be subject to a fine of not less than ten (\$10.00) dollars and not exceeding fifty (\$50.00) dollars.

*Thirty-fourth.* No hydrant, except the public drinking fountains, shall be placed within the limits of any street unless such hydrant is securely closed and protected against general use, and no drinking fountain shall be erected for public use which has openings by which it can be used as a source of domestic supply.

*Thirty-fifth.* Water supplied to any place of which the rates and system of measurement are not provided for by other rules, shall be estimated by the Superintendent and assessed at the rate of twenty cents per thousand gallons. Whenever practicable, a meter shall be used as a basis for estimation.

*Thirty-sixth.* The size of ferrules shall be:

For all houses of 9 rooms or less,  $\frac{1}{2}$ -inch internal diameter.

For all houses, 9 to 18 rooms,  $\frac{5}{8}$ -inch internal diameter.

For all houses, more than 18 rooms,  $\frac{3}{4}$ -inch internal diameter.

For hotels, manufacturing establishments, or public buildings, requiring a larger supply, the size of the ferrule will be increased in proportion to the estimated amount of water to be used.

Street service pipes must be  $\frac{1}{8}$ -inch larger than the ferrule, and the allowed weight of pipe used in plumbing houses will be found in the following table "A."

*Thirty-seventh.* All bills must be paid promptly when due, and all officers of the Water Works are positively prohibited from allowing credit to any one.

*Thirty-eighth.* Pipes of two inches or more shall be made of iron.

*Thirty-ninth.* For a violation of any of these rules and regulations, or such others as the Board of Trustees may hereafter adopt, the Board reserves the right to stop the supply of water, without any preliminary notice, nor will it be restored until all back rent and damages shall be paid, together with one dollar for the expense of turning off the water and one dollar for turning it on again; and upon a satisfactory understanding with the party that no further cause of complaint shall arise. And the Board of Trustees hereby reserves to itself the full right, power and authority to cut off the supply of water at any time, without incurring any liability or cause of action for damages of any kind, any permit granted or regulation to the contrary notwithstanding. In case of a second violation of the regulations by any person, the Superintendent of Water Works may cause the ferrule to be drawn. Should this be done, a charge of three dollars will be made for re-inserting it.

*Fortieth.* All permits for use of water shall be granted only upon the express condition that if, from any cause, the supply of water should fail, no damage shall be claimed by the person or persons to whom they are given.

SEC. 10. Any person who shall violate any or either of the rules and regulations for the government of water-takers or plumbers, specified in Section 9, shall, upon conviction, in addition to the enforcement of the forfeitures, liabilities, stipulations and reservations therein contained, pay a fine of not less than three dollars nor more than one hundred dollars.

SEC. 13. SPECIFICATIONS FOR LAYING WATER PIPES.— Lines of pipes to be laid at such times and in such streets, or parts thereof, as the Board of Trustees, or their Engineer, shall direct.

In digging trenches, the surface covering of improved streets shall be carefully removed and deposited in such a manner as not to be mixed with the deeper excavations, and not to obstruct necessarily the streets.

The remaining materials to be excavated shall be deposited on one side, and, at least, two feet from the edge of the trench.

All trenches shall be excavated in advance of the pipe laying as far, and only as far, as required by the Board or their Engineer. The trenches shall be dug of sufficient width, and joint holes shall be dug at the bell end of each pipe, of sufficient depth to allow of convenient access to the joint upon all sides, and the trenches shall be kept clear and free from water, or cavings, until the pipes are laid and calked.

No pipes shall be laid less than five and one-half feet from the surface, unless otherwise ordered by the Board of Trustees.

All connections of water pipes, specials and fixtures, to be made with lead joints in the most careful manner, as follows: The pipes having first been swabbed out clean; after the pipes have been put in place there will be first used a sufficient quantity of sound rope gasket, properly driven into either the hub or sleeve, as the case may be, to a good and hard seat around said pipes, or spigot end, and in said hub or sleeve; then there will be poured into and on said gasket moulten lead, to be, when cold, not less than two inches in depth, extending into the hub or sleeve, after which, the joint so made shall be calked in the most perfect manner, the said joints completed to remain water tight for the space of one year from the acceptance of the work, as hereafter provided.

The back filling shall be carefully done, by ramming the earth or sand under or around the said pipes and connections,

giving them a good and suitable bearing, the remainder of the trench to be filled in layers and thoroughly rammed, or thoroughly wet with water; surplus earth remaining shall be removed by the contractor and deposited in such places as will be directed by the Board, or their Engineer, or be spread uniformly over the surface of the street, as the Engineer may direct.

In improved streets, after the trench has been thoroughly filled, and had time to settle, all surface material removed shall be carefully replaced, so as to leave the street in as good condition as before the trench was dug.

When culverts or drains are disturbed, the contractor shall be required to restore them to their original, or to as good a state, in all respects, as they were in before being disturbed, without any extra charge therefor. In all cases, when bracing to prevent caving of the banks is necessary, the contractor shall make no extra charge therefor.

The contractor shall be liable for all damages occasioned by the digging up, use, or occupancy of any street, or public ground, or which may result from the carelessness of such contractor, his agents, employees or workmen, or from neglect to maintain suitable barriers and signals of warning, by night or by day.

The contractor will be required to keep in good repair and condition, for six months after the completion of his work, all streets, pavements, and surfaces, so far as they may settle or otherwise be injured in the consequence of defective work, or backfilling said trenches, and restoring said streets, pavements and surfaces.

Pipes for putting in fire hydrants, shall be laid by the contractor whenever required, and shall be paid for at the same rate as for pipes of the size used for the hydrant connections.

After the pipes have been laid and connected together in the trenches, together with all valves, hydrants and specials of every kind required to complete the pipes, or mains, for use as

intended, for fire or domestic service, there will be a test made by hydraulic pressure, not to exceed 175 pounds to the square inch, which test will be constantly applied, until all of the pipes, valves, hydrants and specials, are found to maintain safely the direct pressure of 175 pounds to the square inch.

All of the aforesaid work to be done and completed in the most careful and workmanlike manner.

“Provided said Town of Lake View shall first, and prior to April 25th, 1879, by proper and valid ordinance, under authority of a vote of the people of said town, as provided in and by the Act of March 29th, 1869, amendatory of the charter of Lake View, authorize said Graceland Cemetery Company to extend the limits of Graceland Cemetery to include for burial purposes the following lands in Lake View, “to-wit: That part of the north half ( $\frac{1}{2}$ ) of the north-west quarter ( $\frac{1}{4}$ ) of the south-west quarter ( $\frac{1}{4}$ ) of Section Seventeen (17), Township Forty (40), North Range Fourteen (14) “East of 3rd P. "Said Graceland Cemetery Company will thereupon, by "means effectual for such purpose, accept the boundaries thus "extended as the fixed limits of Graceland Cemetery, and "relinquish absolutely all claim and intention to use or acquire "for burial purposes any other land in the Town of Lake "View.

"And said Cemetery Company will also, before the next "annual sale for State and County taxes, pay all taxes (in- "cluding Lincoln Park tax), levied and assessed upon its "lands, not now enclosed for cemetery purposes, for the years "1875, 1876, 1877 and 1878.

"And said Cemetery Company will also, in case of such "extension, contribute so much of the land now owned by said "company, or which shall hereafter be acquired by said com- "pany, as shall be required for the purpose of continuing "Stella Street sixty-six feet in width from Graceland Avenue "due north to Sulzer Street, and will keep free from actual "interments a strip of its lands fifty feet in width along the "west line of Stella Street thus extended, and plant and main- "tain a hedge, or row of trees, along said street line, and in "case it shall purchase for burial purposes the tract of land "first above mentioned, known as the "Sulzer Tract," will "reserve the frontage thereof on Sulzer Street and Green Bay "Road to the depth of ten feet, and also the space between "said road and street, and a curved red line as shown on plats "hereto attached, to be kept free from burials, and used for "the purpose of a hedge of evergreens or other trees; and said "Cemetery Company will not construct or use any other car- "riage entrance to said cemetery than the one now in use at "the south-west corner thereof."

And, whereas, said application was supported by the petition of more than twenty legal voters of said town, and thereafter in pursuance of the statute in such case provided, said Board of Trustees caused the question of granting said application to be submitted to the legal voters of said town, at the annual election of town officers, held in said town on the first

day of April, A. D. 1879, and a large majority of all the legal voters, voting at such election, voted in favor of granting said application upon the terms and conditions aforesaid; therefore,

Whenever any person or corporation shall desire to open such new cemetery, or enlarge an old one, an application shall be made to the Board of Trustees, supported by the petition of at least twenty legal voters of the town, when it shall be the duty of the Board to cause the question to be submitted to the legal voters of the town, at the next annual election for town officers; and if the majority of all the legal voters, voting at said election, shall vote in favor of the proposition, then it shall be lawful to open and establish the new cemetery, or enlarge the old one, as the case may be, in accordance with the proposition submitted, but not otherwise.

SEC. 2. If any person, association, or corporation, shall attempt to or shall open and establish a new cemetery, or enlarge an old one, contrary to the provisions of this Act, it shall be deemed a misdemeanor, and punished, as now provided by the ordinance of said town, or as may be provided by ordinance hereafter passed; and the steps now allowed by the ordinances of the town to prevent, abate and remove the same, may also be taken as therein provided.

SEC. 3. It shall be the duty of any court of competent jurisdiction, on application of any resident tax payer of the town, or of the town itself, to prevent the opening or establish-

ment of any new cemetery, or the enlargement of any old one, contrary to the provisions of this act, by injunction.

SEC. 4. The Board of Trustees may license and regulate the use of all wagons and teamsters engaged in hauling for hire within the town, whether the owners or teamsters reside or keep such wagons and teams in the town, or elsewhere, and may enforce such regulations by penalties and imprisonment.

SEC. 5. This Act shall take effect from and after its passage.

**SECTION 1.** That the corporate authorities of cities and villages are hereby vested with power to make local improvements by special assessment or by special taxation, or both, of contiguous property, or general taxation, or otherwise, as they shall by ordinance prescribe.

**SEC. 2.** When any such city or village shall, by ordinance, provide for the making of any local improvement, it shall by the same ordinance prescribe whether the same shall be made by special assessment or by special taxation of contiguous property, or general taxation, or both.

**SEC. 3.** Should said ordinance provide for improvements which require the taking or damaging of property, the proceeding for making just compensation therefor shall be as follows :

**SEC. 4.** Whenever any such ordinance shall be passed by the legislative authority of any such city or village, for the making of any improvement mentioned in the first section of this Act, or any other local improvement that such city or village is authorized to make, the making of which will require that private property be taken or damaged for public use, such city or village shall file a petition in some court of record of the county in which such city is situated, in the name of the city, praying that "the just compensation to be made for private property to

be taken or damaged for the improvement or purpose specified in such ordinance shall be ascertained by a jury."

SEC. 5. Such petition shall contain a copy of the said ordinance, certified by the clerk, under the corporate seal; a reasonably accurate description of the lots, parcels of land, and property which will be taken or damaged, and the names of the owners and occupants thereof, so far as known to the board or officer filing the petition, and where any known owners are non-residents of the State, stating the fact of such non-residence.

SEC. 6. Upon the filing of the petition aforesaid, a summons, which may be made returnable upon any day in term time, shall be issued and served upon the persons made parties defendant, as in cases in chancery. And in case any of them are unknown, or reside out of this State, or on due inquiry cannot be found, the clerk of the court, upon an affidavit being filed showing such fact, shall cause publication to be made in some newspaper printed in his county, or if there be no newspaper published in his county, then in some newspaper published in this State, containing notice of the pendency of such proceeding, the parties thereto, the title of the court, and the time and place of the return of the summons in the case, and the nature of said proceeding; such publication to be made for four weeks consecutively, at least once in each week, the first of which shall be at least thirty days before the return day of such summons. Notices so given by publication shall be sufficient to authorize the court to hear and determine the suit, as though all parties had been sued by their proper names and had been personally served.

SEC. 7. Upon the return of said summons, or as soon thereafter as the business of the court will permit, the said court shall proceed to the hearing of such petition, and shall impanel a jury to ascertain the just compensation to be paid to all of such owners and occupants aforesaid.

But if any defendant or party in interest shall demand, or the court shall deem it proper, separate juries may be impan-

eled as to the compensation or damages to be paid to any one or more of such defendants or parties in interest. [As amended by act in force March 30, 1874.]

SEC. 8. Such jury shall also ascertain the just compensation to be paid to any person claiming an interest in any lot, parcel of land or property which may be taken or damaged by such improvement, whether or not such person's name, or such lot, parcel of land, or other property, is mentioned or described in such petition; *Provided*, such person shall first be admitted as a party defendant to said suit by such court, and shall file a statement of his interest in, and description of the lot, parcel of land, or other property in respect to which he claims compensation.

SEC. 9. The court may, upon the motion of such city or village, or of any person claiming any such compensation, direct that said jury (under the charge of an officer of the court) shall view the premises which it is claimed by any party to said proceeding will be taken or damaged by said improvement, and in any case, where there is no satisfactory evidence given to the jury as to the ownership of, or as to the extent of the interest of any defendant in the property to be taken or damaged, the jury may return their verdict as to the compensation or damage to be paid for the property or part of property to be taken or damaged, and for the entire interests therein. [As amended by act in force March 30, 1874.]

SEC. 10. Upon the return of such verdict, the court shall order the same to be recorded, and shall enter such judgment or decree thereon as the nature of the case may require. The court shall continue or adjourn the cause, from time to time, as to all occupants and owners named in such petition who shall not have been served with process, or brought in by publication, and shall order a new summons to issue and new publication to be made; and upon such occupants or owners being brought into court, shall impanel a jury to ascertain the compensation so to be paid to such defendant or defendants, for private property taken or damaged; and like proceeding

shall be had for such purpose as hereinbefore provided for the ascertaining of compensation to other owners.

SEC. 11. The court shall have power, at any time, upon proof that any such owner or owners named in such petition, who has not been served with process, has ceased to be such owner or owners since the filing of such petition, to impanel a jury and ascertain the just compensation to be made for the property (or the damage thereto) which had been owned by the person or persons so ceasing to own the same; and the court may, upon any finding or findings of any jury or juries, or at any time during the course of such proceedings, enter such order, rule, judgment or decree as the nature of the case may require.

SEC. 12. No delay in making an assessment of compensation shall be occasioned by any doubt or contest which may arise as to the ownership of the property, or any part thereof, or as to the interests of the respective owners or claimants, but in such case the court may impanel a jury and ascertain the entire compensation or damage that should be paid for the property, or part of property, and the entire interests of all parties therein, and may require adverse claimants to interplead so as to fully determine their rights and interests in the compensation so ascertained. And the court may make such order as may be necessary in regard to the deposit or payment of such compensation.

SEC. 13. When it shall appear, from said petition or otherwise, at any time during the proceedings upon such petition, that any infant, or insane or distracted person, is interested in any property that is to be taken or damaged, the court shall appoint a guardian, *ad litem*, for such infant or insane or distracted person, to appear and defend for him, her or them; and the court shall make such order or decree as it shall deem proper to protect and secure the interest of such infant, or insane or distracted person, in such property, or the compensation which shall be awarded therefor.

SEC. 14. Any final judgment or judgments, rendered by said court, upon any finding or findings of any jury or juries, shall be a lawful and sufficient condemnation of the land or property to be taken upon the payment of the amount of such finding as hereinafter provided. It shall be final and conclusive as to the damages caused by such improvement, unless such judgment or judgments shall be appealed from; but no appeal or writ of error upon the same shall delay proceedings under said ordinance, if such city or village shall deposit, as directed by the court, the amount of the judgment and costs, and shall file a bond in the court in which such judgment was rendered, in a sum to be fixed and with security to be approved by the judge of said court, which shall secure the payment of any future compensation which may at any time be finally awarded to such party so appealing or suing out such writ of error, and his or her costs.

SEC. 15. The Court, upon proof that said just compensation so found by the jury has been paid to the person entitled thereto, or has been deposited as directed by the court (and bond given, in case of any appeal or writ of error,) shall enter an order that the city or village shall have the right, at any time thereafter, to take possession of or damage the property, in respect to which such compensation shall have been so paid or deposited, as aforesaid.

SEC. 16. When the ordinance under which said improvement is ordered to be made, shall provide that such improvement shall be made by general taxation, the cost of such improvement shall be added to the general appropriation bill of such city or village, and shall be levied and collected with and as a part of the general taxes of such city or village.

SEC. 17. When said ordinance under which said local improvement shall be ordered shall provide that such improvement shall be made by special taxation of contiguous property, the same shall be levied, assessed and collected in the way provided in the sections of this act providing for the mode of making, levying, assessing and collecting special assessments.

(a) See Act of 1872, entitled "Eminent Domain," and notes thereto.

(b) Mandamus may be awarded to compel a city to collect such taxes and assessments, *Higgins vs. Chicago*, 18 Ill. R., 276, and an action on the case will lie against the city for failure to collect and pay over damages assessed on condemnation. *Clayburg vs. Chicago*, 25 Ill. R., 535.

SEC. 18. When the ordinance under which said local improvement is ordered to be made shall provide that such improvement shall be wholly or in part made by special assessment, the proceedings for the making such special assessment shall be in accordance with the sections of this act [Article] from eighteen to fifty-one inclusive.

SEC. 19. Whenever such local improvements are to be made wholly or in part by special assessment, the said council in cities, or board of trustees in villages, shall pass an ordinance to that effect, specifying therein the nature, character, locality and description of such improvement: *Provided*, That whenever any such ordinance shall provide only for the building or renewing of any sidewalk, the owner of any lot or piece of land fronting on such sidewalk shall be allowed fifteen days after the time at which such ordinance shall take effect in which to build or renew such sidewalk opposite his land, and thereby relieve the same from assessment: *Provided*, That the work so to be done shall in all respects conform to the requirements of such ordinance,

SEC. 20. The city council or board of trustees shall appoint three of its members, or any other three competent persons, who shall make an estimate of the cost of the improvement contemplated by such ordinance, including labor, materials, and all other expenses attending the same, and the cost of making and levying the assessment, and shall report the same in writing to said council or board of trustees.

SEC. 21. On such report being made and approved by the council, or board of trustees, as the case may be, it may order

a petition to be filed by such officer as it shall direct, in the county court of its county, for proceedings to assess the cost of such improvement in the manner provided in this act.

SEC. 22. The petition shall be in the name of the corporation, and shall recite the ordinance for the proposed improvement, and the report of such commission, and shall pray that the cost of such improvement may be assessed in the manner prescribed by law.

SEC. 23. Upon the filing of such petition the court shall appoint three competent persons as commissioners, who shall take and subscribe an oath, in substance as follows, to-wit:

"STATE OF ILLINOIS, } ss.  
—County.

"We the undersigned commissioners, appointed by the county court of \_\_\_\_\_ county, to assess the cost of \_\_\_\_\_ (here state in general terms the improvement,) do solemnly swear (or affirm, as the case may be,) that we will a true and impartial assessment make of the cost of said improvement upon the city (or village) of \_\_\_\_\_, and the property benefited by such improvement, to the best of our ability, and according to law."

SEC. 24. It shall be the duty of such commissioners to examine the locality where the improvement is proposed to be made, and the lots, blocks, tracts and parcels of lands that will be specially benefited thereby, and to estimate what proportion of the total cost of such improvement will be of benefit to the public, and what proportion thereof will be of benefit to the property to be benefited; and apportion the same between the city or village and such property, so that each shall bear its relative equitable proportion; and having found said amounts, to apportion and assess the amount so found to be of benefit to the property, upon the several lots, blocks, tracts and parcels of land in the proportion in which they will be severally benefited by such improvement: *Provided*, That no lot, block, tract or parcel of land shall be assessed a greater amount than it will be actually benefited. *And provided further*, That it shall not be necessary for said commissioners to examine the locality except where the ordinance provides for the opening,

widening or improvement of streets and alleys, (as amended by act approved and in force March 30, 1874.)

(a) See Sec. 9, Art. 9, Constitution of 1870. Prior to this section it was decided that it was not necessary for the commissioners to go upon the ground or streets sought to be improved, and there investigate. *Wright vs. Chicago*, 48 Ill. R., 285, and their judgment could not be impeached except by fraud. (*Elliot vs. Chicago*, 48 Ill. R., 293; *Chicago vs. Burttice*, 24 Id., 489.)

(b) Such assessments are not like taxes, a charge upon property that reduces its value. (*The Trustees &c., vs. Chicago*, 12 Ill. R., 403; *Peoria vs. Kidder*, 26 Id., 357.)

(c) In all special assessments, there should be assessed on each lot or tract the benefit it will derive from the improvement charging such benefit: and the residue of the cost should be paid by equal and uniform taxation. (*Chicago vs. Larned*, 34 Ill. R., 203; *Ottawa vs. Spencer*, 40 Id., 211; *Chicago vs. Baer*, 41 Id., 306; *Bedard vs. Hall*, 44 Id., 91; *Holbrook vs. Dickinson*, 46 Id., 285.) And such special assessment is void, where the whole cost of the improvement is put upon property in proportion to the benefits exceeding the actual benefits conferred. (*St. John vs. East St. Louis*, 50 Ill. R., 90.) It is the same where contiguous property is taxed for improvements under Sec. 17, *ante*.

(d) Church property exempt from general taxation is liable to special assessments. (*Ottawa vs. Trustees, &c.*, 22 Ill. R., 624.) So is property owned by a city. (*Higgins vs. Chicago*, 18 Ill. R., 281; *Scammon vs. Chicago*, 12 Ill. R., 193.) Or by a street railroad. (*Chicago vs. Baer*, 41 Ill. R., 306.)

(e) Assessments must be for improvements to be made, and not for those already completed. (*Dorothy vs. Chicago*, 53 Ill. R., 79; *Butsie Howell vs. Buffalo*, 37 N. Y., R., 267.)

(f) An assessment collected, may be recovered back where the improvement has been abandoned. (*Bradford vs. Chicago*,

25 Ill. R., 411; *Cook Co. vs. C. B. & Q. R. R. Co.*, 35 Ill. R., 466.)

SEC. 26. (As amended by act in force July 1, 1873. See *Ottawa vs. Macy*, 20 Ill. R., 413.

SEC. 28. On or before the final hearing, the affidavit of one or more of the commissioners shall be filed in said court, stating that they have sent or caused to be sent by mail to the owners whose premises have been assessed, and whose names and places of residence are known to them, the notice hereinbefore required to be sent by mail to owners of premises assessed. They shall also cause to be filed the affidavit of the person who shall have posted the notices required by this act to be posted, setting forth when and in what manner the same were posted. Such affidavits shall be received as *prima facie* evidence of a compliance with this act in regard to giving such notices. They shall also file a certificate of publication of said notice in like manner as is required in other cases of publication of notices.  
(As amended by act in force July 1, 1873.)

SEC. 29. If ten days shall not have elapsed between the first publication, or the putting up of such notices, and the first

day of the next term of such court, the hearing shall be continued until the next term of court.

SEC. 30. Any person interested in any real estate to be affected by such assessment, may appear and file objections to such report, and the court may make such order in regard to the time of filing such objections as may be made in cases at law in regard to the time of filing pleas. As to all lots, blocks, tracts and parcels of land, to the assessment of which objections are not filed within the time ordered by the court, default may be entered and the assessment confirmed by the court.

(a) The court may take time to consider and decide upon the objections. *Ottawa vs. Fisher*, 20 Ill. R., 422.

(b) A party after notice, who fails to appear, waives all objections. (*Ottawa vs. C. & R. I. R. R. Co.*, 25 Ill. R., 43; *Jenks vs. Chicago*, 48 Id., 296.)

(c) A special assessment cannot extend beyond the property described in the notice. (*Owen vs. Chicago*, 53 Ill. R., 95.)

(d) The assessment must conform to the law; it is the foundation of the proceedings. (*Chicago vs. Wright*, 32 Ill. R., 192.)

SEC. 31. On the hearing, the report of the commissioners shall be competent evidence, and either party may introduce such other evidence as may tend to establish the right of the matter. The hearing shall be conducted as in other cases at law, and if it shall appear that the premises of the objector are assessed more or less than they will be benefited, or more or less than their proportionate share of the cost of the improvement, the jury shall so find, and also find the amount for which such premises ought to be assessed, and judgment shall be rendered accordingly.

SEC. 32. The hearing in all cases arising under this act shall have precedence over all other cases in such court, except criminal cases.

SEC. 33. The court before which any such proceeding may be pending, shall have authority, at any time before final adjournment, [judgment,] to modify, alter, change, annul or confirm any assessment returned as aforesaid, or cause any such assessment to be recast by the same commissioners whenever it shall be necessary for the attainment of justice, or may appoint other commissioners in the place of all or any of the commissioners first appointed, for the purpose of making such assessment, modifying, altering, changing or recasting the same, and may take all such proceedings and make all such orders as may be necessary to make a true and just assessment of the cost of such improvement according to the principles of this act, and may from time to time, as may be necessary, continue the application for that purpose as to the whole or any part of the premises.

SEC. 34. The judgment of the court shall have the effect of a several judgment as to each tract or parcel of land assessed, and any appeal from such judgment or writ of error shall not invalidate or delay the judgment except as to the property concerning which the appeal or writ of error is taken. Such judgment shall be a lien upon the property assessed, from the date thereof until payment shall be made.

SEC. 35. The clerk of the court in which such judgment is rendered shall certify the assessment roll and judgment to the clerk of such city or village, or if there has been an appeal or writ of error taken on any part of such judgment, then he shall certify such part of the judgment as is not included in such appeal or writ of error. The clerk of the city or village shall file such certificate in his office, and issue a warrant for the collection of such assessment.

SEC. 36. The warrant in all cases of assessment under this act shall contain a copy of such certificate of the judgment, describing the lots, blocks, tracts and parcels of land assessed, and the respective amounts assessed on each lot, block, tract or parcel of land, and shall be delivered to the officer authorized

to collect such special assessments. Such warrant shall give sufficient authority to collect the assessments therein specified.

SEC. 37. The collector receiving such warrant shall immediately give notice thereof by publishing such notice in one or more newspapers in such city or village, if such newspaper is there; and if there is no such newspaper, then by posting four copies thereof in public places along the line of the proposed improvement. Such notice may be substantially in the following form:

"SPECIAL ASSESSMENT NOTICE. SPECIAL WARRANT NO.—.

"Public notice is hereby given that the (here insert the title of court) has rendered judgment for a special assessment upon property benefited by the following improvement (here insert the character and location of the improvement in general terms), as will more fully appear from the certified copy of the judgment on file in the office of the clerk of the city (or village) of ——, that a warrant for the collection of such assessments is in the hands of the undersigned. All persons interested are hereby notified to call and pay the amounts assessed at the collector's office (here insert location of office), within thirty days from the date hereof.

"Dated this —— day of ——, A. D. 18—.

—————, *Collector.*"

SEC. 38. It shall be the duty of the collector into whose hands the warrant shall so come, as far as practicable, to call upon all persons resident within the corporation whose names appear on the assesment roll, or the occupants of the property assessed, and personally, or by written or printed notice left at his or her usual place of abode, inform them of such assessment, and request payment of the same. Any such collector omitting so to do shall be liable to a penalty of ten dollars for every such omission, but the validity of the special assessment, or the right to apply for and obtain judgment for any such special [assessment] shall not be affected by such omission. It shall be the duty of such collector to write the word "paid" opposite each tract or lot on which the assessment is paid, together with the name and post office address of the person making the payment, and date of payment.

SEC. 39. It shall be the duty of the collector of special assessments, within such times as the city council or board of trustees may, by ordinance, provide, to make a report in writing—to the general officer of the county authorized, or to be designated by the general revenue law of this State, to apply for judgment and sell lands for taxes due the county and State—of all the lands, town lots and real property on which he shall have been unable to collect special assessments, with the amount of special assessments due and unpaid thereon, together with his warrant, or with a brief description of the nature of the warrant or warrants received by him authorizing the collection thereof; which report shall be accompanied with the oath of the collector that the list is a correct return and report of the lands, town lots and real property on which the special assessments levied by authority of the city of ———, (or village of ———, as the case may be), remain due and unpaid; that he is unable to collect the same or any part thereof, and that he has given the notice required by law that said warrants had been received by him for collection. Said report, when so made, shall be *prima facie* evidence that all the forms and requirements of the law in relation to making said return have been complied with, and that the special assessments mentioned in said report are due and unpaid. And upon the application for judgment upon such assessment, no defense or objection shall be made or heard which might have been interposed in the proceeding for the making of such assessment, or the application for the confirmation thereof. (See *Ottawa vs. Macy*, 20 Ill. R., 413.)

SEC. 40. When said general officer shall receive the report provided for in the preceding section, he shall at once proceed to obtain judgment against said lots, parcels of land and property for said special assessments remaining due and unpaid, in the same manner as is or may be by law provided for obtaining judgment against lands for taxes due and unpaid the county and State; and shall in the same manner proceed to sell the same for the said special assessments remaining due and un-
